

STRENGTHS

MENTAL TOUGHNESS

A team that never gives up: they often come back from ten down in the last quarter. They react well after a time out.

DEFENSE

Man to man with tight help in the paint. They switch every screen between guards.

OFFENSE

Almost everything is built off the middle pick. If the big rolls hard they immediately look for the weak-side cut.

3PT SHOOTING

9.2 of 26 (35%)

#7 Player 4 (41%) — #11 Player 8 (38%)

1-ON-1

#5 always drives right. #9 prefers the pull-up from twelve to fifteen feet.

TO WIN

MENTAL TOUGHNESS

Start strong and do not let them back into the game in the third quarter.

OFFENSE

Attack in transition before their defence is set. Look for the advantage in the first eight seconds.

DEFENSE

Go under the middle screens, never switch. Force the shot from fifteen feet.

STRATEGIES

Full-court man for the first four minutes, then half-court defence. Zone 2-3 only after time outs.

WARM-UP

- 12' Running and joint mobility. Skips, high knees, lateral steps. Two lengths of the floor per drill.
- 8' Two-ball dribbling on the move, change of hand at the cone. Eyes up.

FUNDAMENTALS

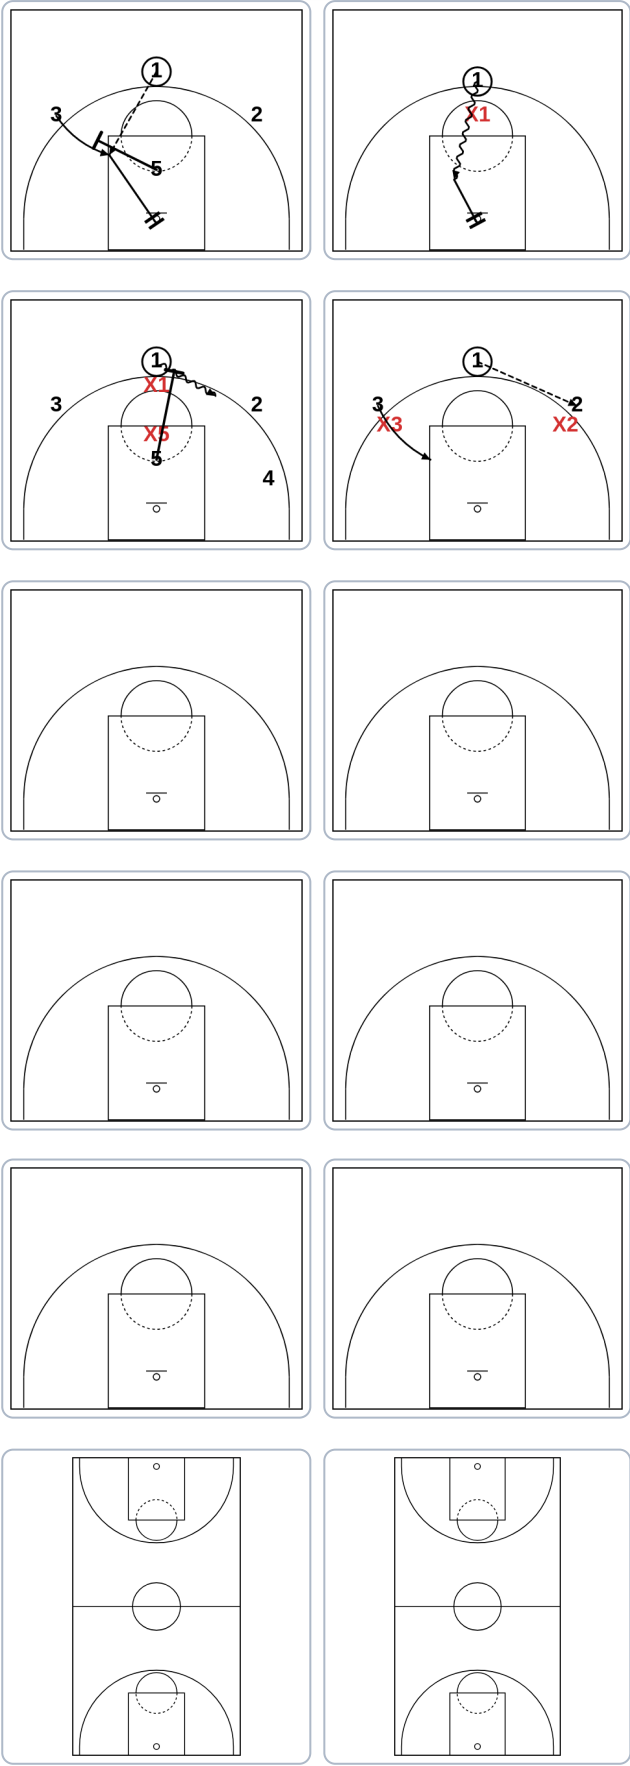

- 15' Shooting off the screen: two lines, pass from the corner. Five makes each side before switching.
- 10' 1 on 1 off the dribble from twenty feet. The defender never crosses her feet.

SITUATIONS

- 20' Middle pick: reading the switch and the under. Walk it through first, then at game speed.
- 15' 5 on 5 half court, today's play only. Every misread stops the drill and gets reviewed.

COOL DOWN

- 10' Free throws in pairs: two sets of five, counted out loud.
- 5' Stretching and wrap-up. A word about Saturday's game.
